

# PROGRAM AT A GLANCE

Plenary Session	01. Living with Parasites	02. Parasites of humans	03. Parasites of domestic and wild animals	04. Parasites of fish	Poster Session	Break
-----------------	---------------------------	-------------------------	--	-----------------------	----------------	-------

## SUNDAY, AUGUST 21

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
17:00-19:00	PL001 – Opening Ceremony and Plenary Keynote						
19:00-20:00	Welcome Reception						

## VIDEO ON-DEMAND

\*Available on the Virtual Platform Only

Symposium 01- Education in Parasitology: Teaching and Learning Parasitology in Regions of Low Endemicity	Symposium 02: Mental disease and toxoplasmosis	Symposium 03: New tools for prevention and control of ticks and tick-borne pathogens	Symposium 04: TOXOSOURCES – Toxoplasma gondii sources quantified	Symposium 05: The Diagnosis of Helminths in Human Histopathology Sections – A Case Series and Training Symposium	Symposium 06: Giardia – molecular and cellular biology	Symposium 07: Taenia asiatica, the latest updates	Symposium 08: Helminth Elimination in the Lower Mekong (HELM) region	Symposium 09: One Health EJP projects on parasites: highlights and cross-project collaborations
--	--	--	--	--	--	---	--	---

## MONDAY, AUGUST 22

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
09:00-10:00	PL02 - Plenary Session						
10:00-10:45	Coffee Break, Poster Viewing & Visit the Exhibition						
10:45-12:15	PA01-01 - Kinetoplast parasitology and geneticsTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA01-02 - Symposium - 2nd generation malaria vaccine development - A Centre for Medical Parasitology Global Excellence in HealthTopic: 2.1 Malaria	PA01-03 - Symposium - Nutrient sensing as a key means of host-pathogen interactionTopic: 2.5 Other studies related to parasites of humans	PA01-04 - Diagnostic-sTopic: 3.1 Diagnostics, phylogeny and genomics	PA01-05 - Wildlife parasites and ecologyTopic: 3.6 Other studies related to parasites of domestic and wild animals	PA01-06 - Fishborne zoonotic parasitesTopic: 4.1 Fish-borne zoonotic parasites	
12:15-13:15	Lunch Break, Poster Viewing & Visit the Exhibition						
13:15-14:45	PA02-01 - ToxoplasmaTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA02-02 - Malaria Immunology and pathogenesis 1Topic: 2.1 Malaria	PA02-03 - Soil-transmitted helminths 1Topic: 2.3 Intestinal parasitic diseases	PA02-04 - Symposium: Morbidity and spill over impact associated with Schistosoma infections: an updated appraisalTopic: 2.2 Schistosomiasis	PA02-05 - Epidemiology and controlTopic: 3.2 Epidemiology, pathology and impact	PA02-06 - Evolution and ecology of fish parasites, pt. 1Topic: 4.2 Evolution and ecology	PA02-07 - Host-parasite communities and shared ecosystems
14:45-15:00	Short Break						
15:00-16:30	PA03-01 - Symposium - Immune response and vaccine candidates for human toxoplasmosisTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA03-02 - Symposium - Helminth immunology: new players for an old gameTopic: 2.3 Intestinal parasitic diseases	PA03-03 - Zoonoses and protozoaTopic: 3.5 Parasitic zoonoses and vector-borne diseases	PA03-04 - Filaria and nematodesTopic: 2.5 Other studies related to parasites of humans	PA03-05 - Snail biology/epidemiologyTopic: 2.2 Schistosomiasis	PA03-06 - Conservation, elimination, model approaches	PA03-07 - Evolution and ecology of fish parasites, pt. 2Topic: 4.2 Evolution and ecology
16:30-17:00	Coffee Break & Poster Viewing (E-North)						
17:00-18:30	PA04-01 - Protozoans and antiprotozoan drugsTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA04-02 - Giardia, Entamoeba, BlastocystisTopic: 2.3 Intestinal parasitic diseases	PA04-03 - Symposium - Meet the "cousins": Angiostrongylus spp. of medical and veterinary importance and their impact across timeTopic: 3.5 Parasitic zoonoses and vector-borne diseases	PA04-04 - Symposium - Progress in developing molecular methods for detection of soil-transmitted helminth infectionsTopic: 2.3 Intestinal Parasitic Diseases	PA04-05 - Parasite biologyTopic: 2.2 Schistosomiasis	PA04-06 - Immunology, molecular biology and vaccines, pt. 1Topic: 3.3 Immunology, immunity and vaccine development	PA04-07 - Symposium - One Health and schistosomiasis in a changing world
18:30-20:00	Poster Session - Shift 01 in the Poster Area (E-North)						

## TUESDAY, AUGUST 23

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
08:30-10:00	PL03 - Plenary Session						
10:00-10:45	Coffee Break, Poster Viewing & Visit the Exhibition						
10:45-12:15	PA05-01 - Symposium - International Projects on Echinococcus/ EchinococcosisTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA05-02 - Symposium - Mitochondria of apicomplexans - a known target for anti-parasitic drugs yet with understudied biologyTopic: 2.1 Malaria	PA05-03 - CryptosporidiosisTopic: 2.3 Intestinal parasitic diseases	PA05-04 - OpisthorchiasisTopic: 2.5 Other studies related to parasites of humans	PA05-05 - Helminth control and use of alternative approachesTopic: 3.4 Prevention and treatment, drug resistance	PA05-06 - Host-parasite interactions in fish, pt. 1Topic: 4.3 Host-parasite interactions	PA05-07 - It's getting hot - emerging and spreading parasitic challenges
12:15-13:15	Lunch Break, Poster Viewing & Visit the Exhibition						
13:15-14:45	PA06-01 - TrematodaTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA06-02 - Malaria immunology and pathogenesisTopic: 2.1 Malaria	PA06-03 - Symposium - Molecular mechanisms of parasite development inside the hostTopic: 2.5 Other studies related to parasites of humans	PA06-04 - Symposium - Genomic insights into schistosome biology and controlTopic: 2.2 Schistosomiasis	PA06-05 - Anti-parasitic activity: compounds and targetsTopic: 3.6 Other studies related to parasites of domestic and wild animals	PA06-06 - Symposium - Physics of Parasitism	PA06-07 - Symposium - Livestock Helminth Research Alliance (LiHRA): Combatting anthelmintic resistance in ruminants - from epidemiology to integrated parasite controlTopic: 3.4 Prevention and treatment, drug resistance
14:45-15:00	Short Break						
15:00-16:30	PA07-01 - Drugs for neglected parasitic diseasesTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA07-02 - Symposium - NK cells and neutrophils in immunity to Plasmodium falciparum malaria - A Centre for Medical Parasitology Global Excellence in Health SymposiumTopic: 2.1 Malaria	PA07-03 - Symposium - Giardiasis from pathogenesis to treatment. Current knowledge and future directionTopic: 2.3 Intestinal parasitic diseases	PA07-04 - Zoonoses and helminthsTopic: 3.5 Parasitic zoonoses and vector-borne diseases	PA07-05 - Symposium - Protozoan Parasite Extracellular Vesicles in Infection and Immunity-Topic: 2.5 Other studies related to parasites of humans	PA07-06 - Consequences, changes, adaptation	PA07-07 - Evolution and ecology of fish parasites, pt. 2Topic: 4.3 Host-parasite interactions
16:30-17:00	Coffee Break & Poster Viewing (E-North)						
17:00-18:30	PA08-01 - CestodesTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA08-02 - Symposium - What is hot in malaria, sickle cell disease and beyond - A Centre for Medical Parasitology Global Excellence in Health SymposiumTopic: 2.1 Malaria	PA08-03 - Symposium - Free-living Amoebae: recent advancesTopic: 2.5 Other studies related to parasites of humans	PA08-04 - Taxonomy and phylogenyTopic: 3.1 Diagnostics, phylogeny and genomics	PA08-05 - Parasites in aquacultured fishTopic: 4.4 Parasitic diseases in aquaculture	PA08-06 - Symposium - From PostDoc to Independence in Parasitology: How to deal with Early Research Career Limbo	PA08-07 - One Health with a social sciences twist

## WEDNESDAY, AUGUST 24

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
08:30-10:00	PL04 - Plenary Session						
10:00-10:45	Coffee Break, Poster Viewing & Visit the Exhibition						
10:45-12:15	PA09-01 - Kinetoplast immunology and pathogenesisTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA09-02 - Symposium - Drug resistance in malaria parasites: consequences for IPTp strategies - A Centre for Medical Parasitology Global Excellence in Health SymposiumTopic: 2.1 Malaria	PA09-03 - Symposium - Parasites and OrganoidsTopic: 2.3 Intestinal parasitic diseases	PA09-04 - Symposium - Blastocystis: Updates on detection, molecular epidemiology, and molecular and cell biologyTopic: 3.5 Parasitic zoonoses and vector-borne diseases	PA09-05 - Symposium - Functional Genomics of parasitic flatwormsTopic: 2.5 Other studies related to parasites of humans	PA09-06 - Immunology-Topic: 2.2 Schistosomiasis	PA09-07 - Embracing complexity and understanding transmission
12:15-13:15	Lunch Break, Poster Viewing & Visit the Exhibition						
13:15-14:45	PA10-01 - FilariaTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA10-02 - Symposium - Late arresting replication competent (LARC) <i>P. falciparum</i> sporozoites (PFSPZ) produced in vitro: a platform technology for malaria and other vaccinesTopic: 2.1 Malaria	PA10-03 - Symposium - Next-generation diagnostics in parasitologyTopic: 2.5 Other studies related to parasites of humans	PA10-04 - Parasites in wild fish populations, pt. 1Topic: 4.5 Parasites of wild fish populations	PA10-05 - Other studies of parasites of domestic and wild animalsTopic: 3.6 Other studies related to parasites of domestic and wild animals	PA10-06 - Epidemiology and pathologyTopic: 3.2 Epidemiology, pathology and impact	PA10-07 - Symposium - Herminthology: gender equality in academia and beyond
14:45-15:00	Short Break						
15:00-16:30	PA11-01 - Ecto-parasitesTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA11-02 - Symposium - $\gamma\delta$ T cells and immunity to <i>Plasmodium falciparum</i> malaria - A Centre for Medical Parasitology Global Excellence in Health SymposiumTopic: 2.1 Malaria	PA11-03 - Soil-transmitted helminths 2Topic: 2.3 Intestinal parasitic diseases	PA11-04 - Symposium - Structural biology of apicomplexan parasites ParasitesTopic: 2.5 Other studies related to parasites of humans	PA11-05 - Parasites in wild fish populations, pt. 2Topic: 4.5 Parasites of wild fish populations	PA11-06 - Symposium - Geospatial tools for parasitology and spatial epidemiology	PA11-07 - Immunology, molecular biology and vaccines, pt. 2Topic: 3.3 Immunology, immunity and vaccine development
16:30-17:00	Coffee Break & Poster Viewing (E-North)						
17:00-18:30	PA12-01 - Symposium - From genotype to phenotype: importance of genotyping to understand virulence and infection epidemiology of <i>Toxoplasma gondii</i> Topic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA12-02 - Malaria parasite biology, pt. 1Topic: 2.1 Malaria	PA12-03 - Miscellaneous parasitesTopic: 2.5 Other studies related to parasites of humans	PA12-04 - Methods and genomicsTopic: 3.1 Diagnostics, phylogeny and genomics	PA12-05 - Epidemiology/controlTopic: 2.2 Schistosomiasis	PA12-06 - Helminth control and drug resistanceTopic: 3.4 Prevention and treatment, drug resistance	PA12-07 - From gut-feelings to new knowledge from molecular approaches
18:30-20:00	Poster Session - Shift 02 in the Poster Area (E-North)						

## THURSDAY, AUGUST 25

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
08:30-10:00	PL05 - Plenary Session						
10:00-10:45	Coffee Break, Poster Viewing & Visit the Exhibition						
10:45-12:15	PA13-01 - Kinetoplast clinical studies, epidemiology and controlTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA13-02 - Symposium - PfEMP1 and severe malaria: news on pathogenesis and immunityTopic: 2.1 Malaria	PA13-03 - Symposium - Extracellular vesicles in host-helminth interactionTopic: 2.5 Other studies related to parasites of humans	PA13-04 - Symposium - Novel diagnostics for elimination of schistosomiasisTopic: 2.2 Schistosomiasis	PA13-05 - Interventions, surveillance, early detection	PA13-06 - Symposium - Ascarids: Solving roundworm-related medical and veterinary health threatsTopic: 3.4 Prevention and treatment, drug resistance	PA13-07 - Control of fish parasites, pt. 1Topic: 4.6 Other studies related to parasites of fish
12:15-13:00	Lunch Break, Poster Viewing & Visit the Exhibition						
13:00-14:30	PA14-01 - Symposium - Recent advances in the biology and host parasite relationship in protozoan parasites of public health importance in Latin AmericaTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococcosis)	PA14-02 - Malaria: Detection, prevention, diagnostics, treatment-Topic: 2.1 Malaria	PA14-03 - Symposium - Advances in single-cell transcriptomics in parasitesTopic: 2.5 Other studies related to parasites of humans	PA14-04 - European Veterinary Parasitology College (EVPC): Residents' Forum	PA14-05 - Parasite treatment and drug resistanceTopic: 3.4 Prevention and treatment, drug resistance	PA14-06 - Symposium - A Paleoparasitological approach of One Health	PA14-07 - Control of fish parasites, pt. 2Topic: 4.6 Other studies related to parasites of fish

## FRIDAY, AUGUST 26

	Auditorium 10	Auditorium 11	Auditorium 12	Hall B4.M5+6	Hall B4.M7+8	Hall B3.M7+8	Hall B3.M5+6
	Live-Streamed to Virtual Platform			Recording of sessions will be available on the virtual platform within 48-hours			
09:00-10:30	PA15-01 - Symposium - Affordable diagnostics and therapeutics for neglected infections through blended 'not-for-profit' approaches with academia and industryTopic: 2.4 Other neglected parasitic diseases (e.g., Leishmaniasis, toxoplasmosis, echinococco	PA15-02 - Malaria parasite biology, pt. 2Topic: 2.1 Malaria	PA15-03 - Symposium - Controlled human infection studies with helminths for the development of vaccines and therapeuticsTopic: 2.3 Intestinal parasitic diseases	PA15-04 - Vectors, vectorborne infection and ectoparasitesTopic: 3.5 Parasitic zoonoses and vector-borne diseases	PA15-05 - Symposium - The realities of implementing community-wide mass drug administration for STH and SCH in EthiopiaTopic: 2.5 Other studies related to parasites of humans	PA15-06 - Symposium - Citizen science for vector-borne disease control: challenges and opportunitiesTopic: 1.5 Other studies related to living with parasites	PA15-07 - Symposium - Tracing the pathways of Anisakis pathogenicityTopic: 4.1 Fish-borne zoonotic parasites
10:30-11:00	Coffee Break (Balcony 1)						
11:00-12:30	PL06 - Plenary Session and Closing Ceremony
